

YASH SEN

Full Stack Developer | React.js • ASP.NET Core • SQL Server

Bhopal, India ■ yashsen6699@gmail.com ■ 8349621190 ■ linkedin.com/in/yashsen ■ github.com/y1xshh

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 6 months of hands-on internship experience designing and delivering scalable web applications across the full development lifecycle. Proficient in React.js, TypeScript, ASP.NET Core, SQL Server, and RESTful API development. Demonstrated ability to collaborate in agile environments, implement secure authentication systems, optimize application performance, and manage relational databases. Seeking a full-time role to contribute to impactful software products at a forward-thinking organization. Open to relocation anywhere in India.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL, Python
Frontend: React.js, HTML5, CSS3, Bootstrap
Backend: ASP.NET Core, RESTful APIs, JWT Authentication, Entity Framework Core
Databases: SQL Server, MySQL
Tools & Platforms: Git, GitHub, Postman, Visual Studio, VS Code
Core Concepts: OOP, DBMS, Data Structures & Algorithms, System Design, Agile / Scrum

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer — Intern

Dec 2025 – Jun 2026

Bhopal, India (On-site)

- Engineered and maintained production-grade web application features using React.js, TypeScript, ASP.NET Core, and SQL Server, contributing to a codebase serving real business users.
- Designed, built, and integrated RESTful APIs supporting core business workflows including approvals, inventory tracking, and customer data management.
- Implemented JWT-based authentication and role-based authorization across multiple modules, strengthening application security.
- Identified and resolved 20+ application bugs, resulting in measurable improvements to performance and end-user experience.
- Wrote and optimized SQL Server queries, stored procedures, and schema migrations for data-intensive backend modules.
- Participated actively in Agile sprint planning, code reviews, and cross-functional team collaboration across feature development and QA cycles.

KEY PROJECTS

Visit Tracking System

- Built a comprehensive visit management platform featuring multi-step approval workflows, secure JWT authentication, and SQL Server-backed data pipelines.
- Developed RESTful API endpoints for scheduling, status updates, and reporting, reducing manual tracking effort for operational teams.

Production Management System

- Developed workflow automation and inventory management features using ASP.NET Core and React.js, streamlining production floor operations.
- Integrated backend data services to synchronize real-time inventory updates and generate production reports.

CRM System

- Implemented full CRUD operations for customer management with secure role-based authentication, improving customer data accessibility for sales teams.
- Designed and integrated backend APIs for customer profiling, interaction history, and search functionality.

PPT Maker Web Application

- Built a full-stack web application enabling users to create, manage, and export presentations with a dynamic React.js frontend and ASP.NET Core backend.

EDUCATION

Bachelor of Technology — Computer Science Engineering

Graduated 2025

Oriental Institute of Science and Technology, Bhopal | CGPA: 6.91

CERTIFICATIONS

- Full Stack Web Development
- Backend Development
- Database Management Systems

AVAILABILITY & RELOCATION

Available to join immediately after June 2026. Open to relocation across major technology hubs including Hyderabad, Bengaluru, Pune, Noida, Gurugram, and Chennai.
